Reasons for Allowance

The following is an examiner's statement of reasons for allowance: Applicants' process for the preparation of polyoxyalkylene glycols is unobvious over the prior art of record. Although it is known in the art that polyoxyalkylene glycols may be prepared by copolymerizing tetrahydrofuran (THF) and diols in the presence of a heteropolyacid the prior art of record does not teach or suggest the copolymerizing the THF and a diol in the presence of both a heteropolyacid and a hydrocarbon, followed by distilling water in a mixture with the hydrocarbon out of the copolymerization reaction. Such a modification allows for a lower polydispersity of the desired polyoxyalkylene glycol. All claims (1-20) are allowed.

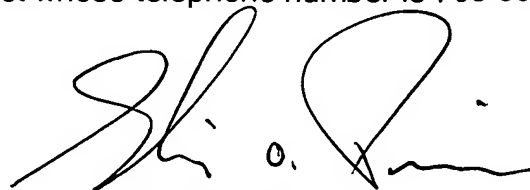

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
